Follow along as I show you how to use CABTREO in a safe and effective way. Before you begin using CABTREO, it’s important to remember to apply CABTREO exactly when and where your doctor instructed you. Doing this will help you get the best results from your treatment. Some important information you need to know before applying CABTREO is that it is for topical use on the skin only. Now that you have prepared your face for CABTREO, let’s walk through the four application steps.... (Pause – Slate your name & contact number or tell us it is your rep’s number – and end the self-tape video!
